

Filter Press, Low Pressure, 6 Unit

Brand: OFI Testing Equipment, Inc.
Product Code: 140-50
Availability: 1

Description

OFITE's Multi-Unit filter presses are perfect for lab environments when several tests must be run simultaneously. These units come complete with manifolds and all necessary air hoses and bleed-off valves. Suitable for laboratory use, OFITE Filter Presses have become the industry standard for low pressure/low temperature filtration testing.

Features

- Stainless steel test cell
- Suitable for lab use
- Conforms to API specifications

Specifications

- Maximum Pressure: 100 PSI (690 kPa)
- Pressure Source: Any non-hazardous gas
- Number of Units: 6
- Filtration Area: $7.1 \pm 0.1 \text{ in}^2$ ($4,580 \pm 60 \text{ mm}^2$)
- Filter Paper Size: 3.5" (9 cm)

Components

- #140-55: Filter Paper
- #141-00-C: Test Cell
- #141-00: Cell Body
- #141-01: Base Cap
- #141-02: Top Cap
- #141-04: Screen
- #141-05: Gasket, Neoprene
- #141-09: Threaded Insert with Set Screw
- #141-10: T-Screw
- #141-13: Air Hose, Low Pressure, 15"
- #141-19: Air Hose Adapter
- #141-22: Felt Filter
- #143-06: Safety Bleeder Valve
- #153-16: Graduated Cylinder
- #170-34: Needle Valve

Optional

- #141-15: Air Hose, Low Pressure, 6'
- #140-40-SP: Spare Parts Kit for #140-40
- #140-50-SP: Spare Parts Kit for #140-50
- #153-16: Graduated Cylinder, 25 mL \times .2 mL
- #171-24-1: Nut for Pressure Fitting, Right-Hand Thread
- #171-24-2: Nipple for Pressure Fitting
- #170-36: Nitrogen Regulator with Gauges

Part Number

- #140-50
